## Back For Powers Planned

By RAY G. MARSHALL  
British United Press, Exclusive Cable to the Edmonton Bulletin.  
TOKYO, Feb. 2.—Foreign Minister Hachiro Arita yesterday disclosed that "government circles" were considering a formal declaration of war against China which would entail suspension of extra-territorial rights of foreign powers in China.

The term "government circles" was interpreted to mean that actual decisions of the government, presumably army men, were considering the advisability of a war declaration.  
Rumors had been current since the Duke of Aosta, above, only Fascist member of the Italian royal family, may become King of Spain should Franco finally conquer. Aosta's enthronement is reported to be Mussolini's price for continued aid to Franco.

## NATION UNITY IS STAND OF JUNIOR GROUP

Recommendations of Commission To Be Supported By Chamber  
Canadian Junior Chamber of Commerce will support recommendations of the Rowell Commission that may be made in the interests of national unity, preservation of which is the biggest task now facing the Dominion, declared A. J. Wharfed, Winnipeg, executive president.

It is the agreed policy of the Junior Chamber, he said, to endorse such recommendations, while maintaining scrupulously free from any political entanglements.

Wharfed, who reached the city Thursday morning on his first western tour since being elected president of the Canadian Junior Chamber of Commerce, recently will address a dinner meeting of the Junior Chamber of Commerce, and other officials of the association. He is at the Macdonald.

## BRITAIN PUTS BIG RESERVE OF GOLD TO WORK

By RADER WINGET  
Associated Press Great Britain increased her defense against the possibility of military or economic attack by placing a great big gold reserve to work.  
The revelation yesterday of the Bank of England's gold reserve, creating about \$100,000,000 (\$467,000,000 in "pounds") in effect placed a substantial amount of gold at the disposal of the exchange and treasury, and gave the treasury a potential cash reserve.

PARIS, Feb. 2.—Anotale Dabier, 60-year-old executioner, died yesterday of a heart attack, after suffering from illness for some time.

## Moscow Breaks Relations With Hungary

MOSCOW, Feb. 2.—Tass, official Soviet news agency, announced today that Foreign Commissar Maxim Litvinoff had informed the Hungarian minister that Russia has decided to break off diplomatic relations and will close its legation in Budapest and expects the Hungarian legation in Moscow also to close.

"The policy of the Hungarian government," Tass continued, "shows that it easily yields to this pressure and has lost its independence to a considerable degree."

Tass indicated the Soviet action was a sequel to Hungary's recent announcement to adhere to the three-power pact of Japan, Germany and Italy against the Communists.

Litvinoff communicated the decision to Michael Rungtner-Arnoldy, Hungary's envoy here since 1934. A Tass statement said:

"In particular it is pointed out that the decision of the Hungarian government to join the so-called anti-Communist pact can be justified by the interests of the Hungarian state itself, which by no means coincide with the aggressive aims pursued under guise of this pact by its participants. In the first place, the decision of the Hungarian government to join the anti-Communist pact is a direct consequence of the Hungarian government's turn of mind."

## COAST POLICE STILL SEEKING H. RATTENBURY

Fifth Day Of Search Fails To Locate Missing Ex-Purchaser  
Police still have the trace of Henry W. Rattenbury, former city purchasing agent, who is sought at the Pacific Coast to answer charges of theft of \$754 city of Edmonton funds.  
Chief Constable A. G. Shute on Thursday morning received a letter, confirming a telegram, from Vancouver police, stating they had turned the case over to West Vancouver police. The letter gave no further information.

"Well, sister, I'm back in your midst," he cried. "Seen the send-off the News gave my story? . . . Where's Aunt Mary?" Then at sight

"Lord, Janet!" he burst out. "What is the matter?"

"Aunt Mary's—gone, Barney," Janet said woodenly. "She's dead. She died last night."

"Dead—Aunt Mary!" His face was as blank as his voice. "Oh, Jan! Why, I can't—people like Aunt Mary don't just die—like that!"

"Don't they?" Janet asked dully. Then, seeing how utterly stunned he was, she asked, "You don't mean, Barney, that you haven't heard—anything—all these weeks?"

"How could I," he demanded. "For almost two months I've been racing across the continent on the coattails of a guy who was barely three jumps ahead of the police. The police didn't get him—but I did. That's how I found out where to look for the written evidence I needed, and—oh, skip that! It doesn't matter now."

"Not exactly. But the people I've been seeing since I did aren't the kind you would know. Since I came—after I'd seen the people

His man sent me to—I've been camped with a pot of coffee handy and a wet towel around my head, spilling the story onto paper as fast as I could write. . . . Oh, Jan, you poor baby!"

He put his arms around her; and she leaned against him while she told him what had happened, crying passionately for the first time.

"They said it was her heart," Barney," she finished. "All of a sudden—after we thought she was

better—it began to grow weaker. And then it just—stopped. . . . Oh, Barney, I wanted you so terribly all that time! And you didn't come."

She felt his arm stiffen under her head. After a breath, he said with an intensity she had never heard from him before, "For God's sake, Jan, don't say things like that unless you mean them!"

He was silent so long that she lifted her head. Then he said, "I'm here now, Janet. And I'll always be here if you'll let me. . . . Do you remember what I told you that morning when we were stuck in the fog? You said something silly about my making an honest woman of you, and I said I could think of a lot of things I'd hate worse. That was a masterpiece of understatement. Jan. . . . I couldn't say

"Why, Barney?" she breathed. "But I never thought of us—in that way."

After a moment he released her slowly.

"Of course," he said. "Just another pipe dream. . . . But I thought you understood all along. I supposed—well, we have got to reach each other."

"But all along I thought it was Cynthia you wanted. . . . We seemed just—grand good friends."

"Well, that wouldn't be such a bad start, would it? As for Cynthia, that never really meant anything to either of us. And I've known a lot of swell girls, Jan, but you're the only one I ever—well, wanted to take care of for the rest of my life. Aunt Mary knew how I felt. . . . Do you know I believe that somehow she understood that

"Please tell me, Barney," Janet said.

It boils down to this—you can have more money circulating, more jobs, more employment by the mechanism of the Central Bank. It can, perhaps, cure unemployment.

But you must pay for it. You must pay for it ultimately by the loss of free competition. You must go into Socialism or Fascism, into state control of everything, which may be a good thing or a bad thing. And we may be on the way there now. It is mighty hard to turn back.

LEGISLATIVE  
PROGRAM NOW  
TAKING FORM

Five Private Bills Filed—  
Invitations Are Being  
Mailed

At least five private bills are scheduled to be introduced at the legislative session opening one week hence, on Thursday, Feb. 9. It was learned from H. A. Anderson, clerk of the legislative assembly.

Preparations for the opening are well advanced and the Hon. J. L. G. Bowen performs the official opening next Thursday. It is expected that arrangements will be made so that there will be no all-sides to expedite matter in view of the visit of Her Majesty King George and Queen Elizabeth.

As Premier William Abernethy has declared that there will be no provincial general election, it is unlikely unless one is forced on the government, it is expected that all members of the house will co-operate to bring sessional business to an early close.

**PRIVATE BILLS**  
The private bills certain of introduction are those embodying amendments to the Education Act and Leithridge city charter; the Railway bill, which will amend the charter of franchises and the Alameda Street, Port of Vancouver bill. This last will have to do with the qualifications of members of the board of the annual meeting and the election of directors.

In addition, private bills may also number one to permit the government to take impressions and to fix the date for filing of private bills.

Date for filing of private bills without penalty, has passed. But Andon points out that those seeking introduction of such bills can do so by paying the stipulated fee for late filing, as the date of expiry of normal filing was advertised.

Invitations are expected to go out immediately for the opening. Invitations are sent only to those whose presence is required for the floor of the house. In addition to the members of the assembly, officials, these include cabinet ministers; Alberta senators and members of parliament; officials of the military, churchmen; members of the university of Alberta faculty; judges of the superior, district court; bankers and other dignitaries.

**NEW MEMBER**  
A feature of the session will be the taking of the seat for the first time by H. T. Pate, Social Credit member for Athabasca, who was elected in the by-election of 1933 to fill the seat left vacant by the death of C. R. Ross. Former minister of lands and mines, Pate won the seat in the 1933 election, but resigned to make way when Mr. Ross was taken into the cabinet. He was again elected in the by-election.

A. E. Fee, S.C. Sedgewick, will move the resolution to adopt the Speech from the Throne, and H. T. Pate, S.C. Sedgewick, will second it.

The government is working at top speed on the seasonal program, both legislative and financial.

The budget is expected to be ready for introduction by the opening. While the legislative program is expected to be light, the major piece of legislation to be brought down is expected to be the new Marketing Act, which will deal with the marketing program and associated matters.

Other important legislative items will be the Housing Act, the redhibition bill, debt adjustment amendments and others, while it is not expected any legislation will be brought in dealing with oil and gas conservation or refunding.

**Red Chevron Club Enjoys Concert At Monthly Gathering**  
Members of the Red Chevron Club were entertained at a smoker and concert at the monthly meeting in the Memorial hall on Wednesday night with President H. L. King in the chair.

Mr. Jones was master of ceremonies, and artists were Bob Rutledge, Joe Rucka, W. H. R. Rucka, Godfrey Henderson and Jack Jones, with Sam Hahn as accompanist. Community singing followed the meeting and refreshments were served. Arrangements were made for the next meeting on the 16th of Andy Slater, H. Rucka, and Jack Jones.

A member of A. McLeish, secretary, was elected. The nominal roll of the club was drawn in black, while the "Red Chevron" was drawn with the Union Jack.

DAIRY PARLEY  
S SCHEDULED  
FOR CALGARY

This City Will Be Well  
Represented At Con-  
vention

Delegates from all sections of this province are expected to attend the annual Alberta Dairy Parley, to be held at the Fairbairn hotel, Calgary, on Feb. 7, 8 and 9, according to an announcement made on Thursday by association officials. Several from this city will be in attendance.

Among those from this city planning to attend are: Hon. D. B. Mathers, minister of agriculture; J. R. Sweeney, deputy minister; D. H. McCallum, dairy commissioner; W. J. Ellett, department of agriculture; J. P. J. Sackville, University of Alberta; J. A. Lynn, provincial livestock supervisor; Dr. H. R. Thornton, U. of A.; R. L. Love, editor, The Canadian Dairyman; A. H. Moore, U. of A.; and others.

Among the distinguished visitors at the convention will be Dr. W. E. Peimans, of the division of dairy zootechnics, University of Minnesota; Dr. J. F. Booth, associate director, marketing service, Dominion Department of Agriculture; and others. The program will keep the visitors and delegates well occupied for the three days the convention is in session.

Eleven officers will take place on Tuesday afternoon.

The convention will be concluded with a banquet and a social. Many butte and cheese exhibits will be on view and in addition to the speakers mentioned above, many others will be present to deal with various phases of the dairying industry.

**FRANK CORSER  
DIES AS CAMP  
MISHAP FATAL**

Well known lumberman and northern transportation man, Frank Corser, 44, died in a city hospital Thursday morning. He had been in hospital since Jan. 5 following an accident at his logging camp at Wolf Creek, which he had been operating for several years.

Born in the United States, Corser, with his brother Arthur, came to Alberta several years ago and has been in the lumbering and transportation business in the vicinity of Wolf Creek.

In 1932, in association with J. J. Doyle, he surveyed a road around the city of Edmonton, and in 1934 he went north to supervise the construction of a road. He was a partner in the Corser Brothers Transportation Company.

This winter, with his brother and Arthur, he was operating a logging camp at Wolf Creek. He was killed by a fall from a tree while working on the camp.

Funeral services will be announced by Pastor H. T. Pate.

**TURNER VALLEY  
HAS VALUE FOR  
MILITARY USE**

Development of oil resources in Turner Valley has not only a great economic value to Canada but also a potential military significance of the first magnitude to the Empire in the event of war, Walter S. Campbell, of the city, leader of the executive of the province, told the Rotary Club Thursday night at the Macdonald.

In this matter we must learn to have foresight, we must learn to cultivate vision," he said.

He said that during the war in England, the discovery of non-Empire oil supply, such as Mexico, would have resulted from many employers giving preference to local resources. Mr. Ingram said.

IN ROAD DEATH

Jury Attaches No Blame  
To L. W. Ryan In A  
Montana Fatality

Second of two Edmonton motorists who were driving cars that fatally injured two men pedestrians in the city last week-end was exonerated from blame by a jury at a court held by Lord W. Ryan at 6:15 p.m. Sunday at the intersection of Jasper avenue and 112 street.

The jury, after hearing the evidence of eight witnesses and a statement from Ryan himself, found in the verdict:

"We do not understand your find that Alex Montano was to his death by being accidentally struck by a car driven by Mr. L. W. Ryan of the city of Edmonton at the intersection of Jasper avenue and 112 street."

The inquiry was conducted by provincial judge Dr. R. A. Brant, and the jury was composed of Messrs. J. H. Bone, H. J. Talbot, Francis Taylor and George Bagnall. The jury was sworn in by Mr. C. P. Purvis acting for the Crown, while Mr. W. H. K. C. acted as clerk.

Spirit at which Ryan's car was involved in the fatal accident was 112 street and also where Montana was walking, when he was struck by the car.

Estimates of Ryan's speed ranged all the way from 10 to 20 miles an hour. The jury found that he was driving at 20 miles an hour at the time of the accident.

He said he turned around to look at the car when it was struck by the car.

**GIRL AWARDED  
\$1,439 DAMAGES  
AFTER ACCIDENT**

Holding that both drivers of a truck and motor coach involved in a collision on 112 street in Calgary, on October 31, 1937, were negligent, Mr. Justice A. F. Baving awarded Miss Kenneth Loughridge, 14, \$1,439.30 in damages for injuries received in the accident.

Miss Loughridge, a minor, sued through her father, Fred Loughridge, who claimed that \$500.00 awarded for special damages was the fair value of the balance of the judgment to go to his daughter.

He held both drivers of the truck and motor coach liable, and the truck driver, Mr. C. H. O'Connor, K.C., for the truck and the motor coach driver, Mr. A. E. Burgess for Sherman Brothers.

CANADA UNITY  
IS DISCUSSED  
BY PROFESSOR

Prof. M. Ross Points To  
Strained Relations In  
Dominion Now

Vigorous analysis of the problems hampering Canadian unity was made before the Lions Club Thursday night at the Macdonald hotel by Professor Malcolm Ross of the University of Alberta, Kananaskis department.

Pointing out the strained relations that now exist between various parts of the country, Professor Ross warned that constructive action must be taken if these problems are to be surmounted and the democratic institutions cherished by Canadians truly preserved.

"They do not serve who only stand," he emphasized.

**APPEALS MADE**  
Appeals made by demagogues to excite prejudice or awaken class hatreds of the type conducted by the speaker, who appealed for a clear vision of Canada as a home of creative freedom in an expanding democracy.

In the United States, he said, certain sections of the Democratic party in the southern states out of sympathy with the new constitution of the United States, have instigated the President Roosevelt.

Quebec's patrician law was cited by Professor Ross as an instance of the intolerance of the province, held sacred by the traditions of free people of which Canada was proud to be a part.

**WEAKEN LIBERTY**  
In Canada, Professor Ross said, the law might be made to weaken liberty under the guise of serving other higher interests. He explained that the law results that alienated such as the law of the province.

**A-R-O-U-N-D  
THE TOWN**  
W. N. Chant, Independent member of the Legislature for Camrose, stated that the trade during the winter he would stand for re-election in the next provincial general election.

Members of the McGill University Students' Association, University of Toronto, W. J. McGillicuddy, Toronto, and T. A. McGillicuddy, Toronto, arrived in the city Thursday morning on a business trip. They will see local members of the trade during their stay here. Both are registered at the Macdonald.

**Officials of the provincial department of health, Calgary, Thursday that dates for Class 'B' falls in five provincial centers have been set. They are: Lethbridge, July 25-26; Vermilion, July 24, 25 and 26; Veggieville, July 23, 24 and 25; and Deer, Aug. 3 and 4.**

**Chemical and electrical engineers in Edmonton will attempt to form an association of their own. The association will correspond with similar groups in other parts of the province. Those interested in joining should contact Mr. Holdsworth at the Edmonton Paint and Glass Company.**

**A. A. Mackenzie, chairman of the Alberta Bureau of Bell and Western, has returned from Ottawa where he conferred with Dominion government officials on relief and other matters of interest to this province. He also sat at a meeting of the Dominion Welfare Council. He said that, pending submission of a report on his trip to Hon. Dr. W. W. Cross, minister of health, that he would have no comment to make.**

**CARE URGED FOR  
CHILDREN HAVING  
WHOOPIING COUGH**  
With the approach of late winter, and early spring, when whooping cough is reaching prevalence, cases of this disease are beginning to be reported, it was stated Thursday by Dr. G. H. Harris, medical officer of health.

There is danger in the fact that most cases of whooping cough are caused by a minor communicable disease. Dr. Harris said that it is a disease to be reckoned with, as it is hidden.

**HEALTHY**  
The great danger is that bronchial pneumonia may develop and patients should be kept warm. He said the acute stage is passed. After the acute stage is passed, fever and other symptoms subside, but great care against catching cold should be taken.

# WATER JUGS AND SHOOTING HOOPS GAME

## EASTWOOD SIX HELD TO DRAW BY TECHNICAL

Sixty-minutes of fast, rugged junior high school hockey failed to win a margin for either Eastwood or Technical as the teams tied 2-2 in the first half. A brilliant late second and third period rally led by White, Eber, and Technical, however, won the Eastwood six victory. Trailing 3-2 at half-time, the Eastwood six, Technical suddenly came to life to whip in a goal in the second and added two more in the final stanza to force the overtime.

**WHITE STARS**  
White was the outstanding player on the ice, rapping in two goals and assisting on the third.

**SPECTOR HOT**  
Spector was the share of Technical's laurels went to White, an Eastwood major junior was captured by the brilliant technicalism of Spector, who was largely responsible for Eastwood's fine showing. He kicked out a barrage of rubber, especially in the second and third periods.

Johnny Shakes opened the scoring with the initial stanza's lone mark, as he raced through the Technical net on a solo dash. But, when Cameron scored 2-1 early in the second half, a pass from Quiller, Aslyn, and Cameron, completed the 2-2 tie. Cameron, however, scored a second goal, beating Hodgson on a pass from Shakes.

Technical was finished, but White was just getting ready to start flying. Lunde brought Technical into the scoring column on a pretty passing play with White. White, however, before the end of the period, while really hit his stride in the closing frame, blasted two burning drives into Spector's. Lunde was given an assist on one of White's goals.

**LINEUPS**  
Eastwood: Spector, Neas, Gordon, Hiltchuck, Quiller, Zarnin, Grant, Shakes, Cameron, Marshall, White, Technical: Hodgson, Longmire, Roberts, Gordon, Scollen, Lunde, and Wood, Hawthorne, Worthington.

## SMOKY LAKE MAN GETS DISMISSAL FORGERY CHARGE

Prindle then was nicely indicted when the name "and Nick Stogrin" was inserted in a land transfer. Mr. Justice T. Mc Tweedie in supreme court Thursday found N. W. Gwynne guilty of forgery, but not guilty of forgery charge.

Mr. Justice Tweedie was critical of the evidence against Gwynne, but up a legal document when he was not legally equipped to do so. He said that the evidence was not sufficient to justify a conviction. I might exercise it in this case, to send you to jail for doing business with a man who is a criminal, but a great many people drawing legal documents without the necessary legal knowledge, and the necessity of legal rights of the people consulting them. This creates trouble for the people who are not familiar with the law. I would suggest that you pay all the expense you have to pay for the people who have to be concluded as he discharges his duty.

In finding the accused not guilty, Mr. Justice Tweedie stated this case as a matter of fact. He was not seeking to right a civil wrong through the criminal court.

The case was a matter of fact, forging a document containing evidence of the transfer of land in the

Five infantile paralysis (polio-myelitis) cases were discovered at Valleyview, 73 miles east of Grande Prairie, in the Peace River district, by Dr. A. C. McHugh, provincial director of communicable diseases, on his investigation of an outbreak in that area last week. He is back at his office from his northern trip.

During the last time of year, said Dr. McHugh, and his trip was made to definitely determine whether the cases actually were infantile paralysis. His investigation confirmed diagnosis by physicians in charge.

All cases are past the infectious stage, he said, although two cases will require hospital treatment here and one crippled case will require special treatment.

Three other cases, thought to be infantile, proved to be arthritis.

## German Press Sees Action Of Roosevelt As Cause To Assist Cause Of Jewry

LONDON, Feb. 2.—President Roosevelt's reported willingness to help Great Britain and France against Germany was hailed with satisfaction today in London and Paris and bitterly condemned in the Nazi and Fascist capitals.

The controlled German press expressed anger over despatches asserting the president told the United States Senate military affairs committee yesterday he favored rearmament aid to the democracies.

It accused him of trying to convert France and Great Britain into a battlefield and called him the "head of war agitators."

Italian papers charged the president with "mongering pessimism."

**FRENCH JUBILANT**

British officials asserted they were nothing about any "understanding for positive commitments" between the United States and Britain for the sale of planes and other war materials, but French officials were jubilant over the president's attitude.

The cabinet meets for the third time in two days today to discuss the defense and the Arab-Jewish conflict.

reference on Palestine, which Mr. Chamberlain will open Tuesday.

German papers concentrated on Mr. Roosevelt and reported United States developments with angry activities. They described the president as a "second Wilson" who "brings Jewry openly to arms against us and convert France and England into a battlefield."

The Italian press carried only brief reports of the meeting with the senate military committee, but what the papers used took the same line as the German comment.

**SECRET CONFERENCE**

In France, L'Etiquette reported the president's reports stated that in case of war France and Britain would be backed by the "unlimited resources" of the United States.

The Lefist Ce Sior defined the president's reported statement as the "real response of Monsieur Blum" and said Mr. Roosevelt was established Britain and France as the advance defense line against the "Hitlerian menace."

## PASTEURIZATION LEGISLATION IS GIVEN PROTEST

FINGAL, Ont., Feb. 2.—More than 100 Elgin county farmers, gathered in the town hall here, passed a resolution last night urging the Ontario government to give a six-month halt to compulsory milk pasteurization regulations which went into effect today.

Compulsory pasteurization of milk in Elgin and a large number of small Ontario municipalities was stipulated in provincial legislation which went into effect today.

The meeting appointed men to go into all parts of the county with petitions to be signed in protest against the pasteurization regulations. The resolution asked that the legislation be given a six-month halt "so that a public trial may be held."

By adding France and by telling a senate committee of his reasons for such action, Mr. Roosevelt has flung a new challenge not only to Berlin and Rome, but to his opposition in congress.

Opening American airplane factories to the French in a sense serves notice to the world that American resources are available to the European democracies in their fight against the Axis.

It is the meaning of the term national defense as used by Mr. Roosevelt in his annual message.

It also challenges Roosevelt opponents to come to declare themselves against this move to aid France.

It is a move to aid France in the face of acceleration of American war production facilities.

A hope may be back of the president's strategy that direct disclosure of the American attitude of backing up Franco-British war-time programs might help toward a conference table adjustment of Europe's problems. Holding command of the sea and air and American war equipment resources, Franco-British leadership can maintain more freely toward such a settlement, it is argued.

## American Industry Now Considered Open To Democracies Of Europe

By KIRKE SIMPSON  
Associated Press Political Writer  
WASHINGTON, Feb. 2.—American industry, which has been holding military plans in the United States with the hope of approval, provides a first glimpse of those methods "short of war" President Roosevelt may have had in mind when he sent his annual message to congress.

He said then that there were methods "stronger and more effective than more words" of impressing American public sentiment upon "aggressive nations."

By adding France and by telling a senate committee of his reasons for such action, Mr. Roosevelt has flung a new challenge not only to Berlin and Rome, but to his opposition in congress.

## GIRL, 16, BADLY INJURED IN BLAST, PROVES HEROINE

NEW GLASGOW, N.S., Feb. 2.—Heroism of a 16-year-old girl who lost four fingers when a dynamite can exploded in her home at Loch, was related today when the story became known. The accident happened Saturday.

The girl was Helen, daughter of Mr. and Mrs. Orestes Russell. Her four-year-old son, Kenneth, found her one while playing outside the house and entered with it in his arms.

Helen recognized it and snatched it from him but in her haste she dropped it.

The explosion threw four fingers from her hand and injured slightly several others of the family. No one was hurt, and regarding her own fingers, she ran to get her father at work in a power plant some distance away.

Not until she was satisfied her younger brother and sisters were all right did she let a doctor dress her wound.

## Hoover Accuses F.D.R. Of Projecting Foreign Policy Likely Lead To War

CHICAGO, Feb. 2.—Herbert Hoover last night accused President Roosevelt of projecting an "unprecedented expansion of foreign policy" that "leads to war" and "appeals to the United States congress to have this adventure clarified before we go blindly into steps increase in armament."

When European democracies were "confronted with unprovoked flooding with propaganda," the former president said in a broadcast speech before the Council on Foreign Relations, Mr. Roosevelt had announced a "new departure" for dealing with the world which led logically to "pressures" such as economic sanctions.

"Those who think in terms of economic sanctions," Mr. Hoover added, "should also think in terms of war." He said, "any form of direct or indirect coercion of nations is force and is the attempt to lead to war."

"Our country standing apart," he said, "can make a contribution of transcendent service in holding aloft the banner of moral relations."

Suggesting a procedure, he said the people should "express unhesitatingly their indignation against wrong and persecution," and should "aid the suffering."

He pleaded for America to stand against the principle that durable peace can be imposed on nations by force, threats, economic pressure or war.

"Our minds," the former president said in opening his address, "are being prepared to accept war as inevitable. We need to keep our heads."
